

The company:

IDMidCaps is an independent financial analysis firm dedicated to the French listed small and mid-cap companies. The company, located in Paris, provides research to institutional investors to help them make their investment decisions. IDMidCaps is opening a new office in Tunisia to expand its geographical coverage to European equities.

The job offers:

We are looking to recruit 3 equity analysts, as soon as possible, for our new office in Tunis. The job consists of realizing fundamental analysis of listed European companies.

In practice the main tasks are the following:

- Reading annual and quarterly reports to understand the company activities and business models.
- Analyzing the track record of the company: sales, profitability, and cash-flow drivers
- Crunching financial data: Income statement, balance sheet and cash-flow statement in excel models.
- Understanding the financial outlook of the company and making scenarios analysis
- Using DCF and other valuation models to do the company valuation.
- Taking part into quarterly and annual analyst meetings with the companies' management
- Preparing the Q&A list and participating to meetings with the company's management
- Preparing a complete investment case (Word and Excel) about the company to be shared with clients (institutional investors). The report will be written in French and English.
- Speaking to clients via online meetings to explain your analysis (in French and English)

The analyst will be in touch regularly (online and one to one) with the Paris Team. During the first months, the candidates will get internal mentorship and training with senior analysts to have a better understanding of the financial analysis process. All the work will be done with the support of senior analysts in Paris. Some trips to Paris could be scheduled to get in touch with the team in Paris and to assist to internal workshops.

The Paris Team is composed of 8 analysts. Tunis office will start with 3 analysts in the beginning with further recruitment scheduled in the future.

Why join us?

- You will work with passionate colleagues and fun-loving culture. The team is young, hardworking, and fun!
- You will get a great learning experience about the stock market and financial analysis.
- The remuneration is very competitive and attractive.
- You will have the opportunity to visit Paris locals and participate to team building events.

Job requirement:

- Master's degree in finance: corporate or financial market with good knowledge about financial analysis and valuation models
- Good sense of curiosity and a willingness to work hard and learn new things.

JOB OFFER: EQUITY ANALYST CDI/Internship

- Good level in English and French in writing and speaking is a must: all the analysis will be done in English and French
- Finally fun mindset and hard-working mentality

Please send your CV and motivation letter (be yourself and honest) to mmansour@idmidcaps.com.
